// Práctico, potente y audaz

Pryor se enorgullece de lanzar Markmate Touch, nuestro primer sistema de marcado de puntos montado en banco que presenta nuestro sistema de control integrado 4000.

Nuestro Markmate Touch cuenta con una pantalla táctil incorporada de 5,7", montada en una posición fácil de usar en el propio cabezal de marcado. Esto significa que Markmate Touch es completamente autónomo y no requiere ningún controlador externo. Esta intuitiva interfaz de pantalla táctil ha demostrado ser un gran éxito para nuestro otro producto de la gama Touch, el PortaDot Touch.

La interfaz del controlador 4000 permite a los usuarios crear, editar y guardar rápidamente diseños de marcado sin necesidad de alejarse de la máquina. Cuando esté listo para marcar un componente, el diseño de marcado se puede cargar y ejecutar rápidamente a través de la pantalla táctil o el botón físico de inicio/parada montado en el cabezal de marcado.

// Características clave

Markmate Touch es nuestro sistema de marcado de mesa de nivel básico y es ideal para marcar e identificar componentes de tamaño pequeño y mediano.

Como sistema de nivel básico, Markmate Touch no es compatible con nuestra alimentación automática de etiquetas ni con nuestro dispositivo circunferencial. Si necesita estos accesorios, considere Markmate 4000 o los sistemas BenchDot.

CARACTERÍSTICAS CLAVE

Utiliza el último sistema de control integrado 4000 de Pryor.

Interfaz de pantalla táctil programable y fácil de usar

Datos de marcado respaldados en el almacenamiento interno con opción de exportar a través de USB

Ventana de marcado grande de 100 mm x 75 mm

Eje Z ajustado manualmente para ajustar diferentes alturas de piezas

Adecuado para producir marcas de identificación, logotipos o códigos de barras 2D

// Sujeción y fijación de piezas

La base de aluminio con doble ranura en T de Markmate Touch permite instalar varias opciones de sujeción y fijación de piezas, lo que mejora la confiabilidad y la repetibilidad del mercado.

/// Accesorios de marcado de etiquetas

Para aplicaciones de marcado de etiquetas repetitivo, nuestro accesorio de etiquetas proporciona una posición de referencia consistente para garantizar que se mantenga la posición del texto. Esto puede ser particularmente útil para etiquetas preimpresas.

/// Base magnética

Asegure su pieza de trabajo con un dispositivo magnético para evitar cualquier movimiento al marcar. Ayuda a garantizar marcas legibles y de alta calidad, y previene daños no deseados o accidentales movimientos de la pieza.

/// Retención de trabajo personalizado

Para componentes complejos e incómodos, tenemos la capacidad de diseñar y fabricar soportes y accesorios de trabajos personalizados. No dude en solicitarnos un presupuesto para que podamos prestarle este servicio.

// Especificaciones Técnicas

Características

Ventana de marcado de 100 mm x 75 mm

Altura máxima de pieza de 220 mm

Interfaz de pantalla táctil totalmente programable

Peso de la máquina: 22 kg

Adecuado para producir marcas de identificación, logotipos o códigos de barras 2D (Datamatrix y QR)

Máximo de 15 caracteres para códigos de barras 2D

Puede marcar permanentemente la mayoría de los materiales de ingeniería hasta una dureza máx. de 62 Hrc

Tamaño de caracteres estándar: 0,19 mm 59,9 mm en incrementos de 0,19 mm (fuente 5x7) o 0,25 mm (fuente 7x9)

Mecanismo de transmisión: eje XY accionado por correa

Estilos de salida de marcas de puntos: 5x7, 7x9, Varidot, 2D Data Matrix, código QR, HPGL, logotipos BMP

Opciones de conectividad: USB A (unidad flash USB; teclado USB)

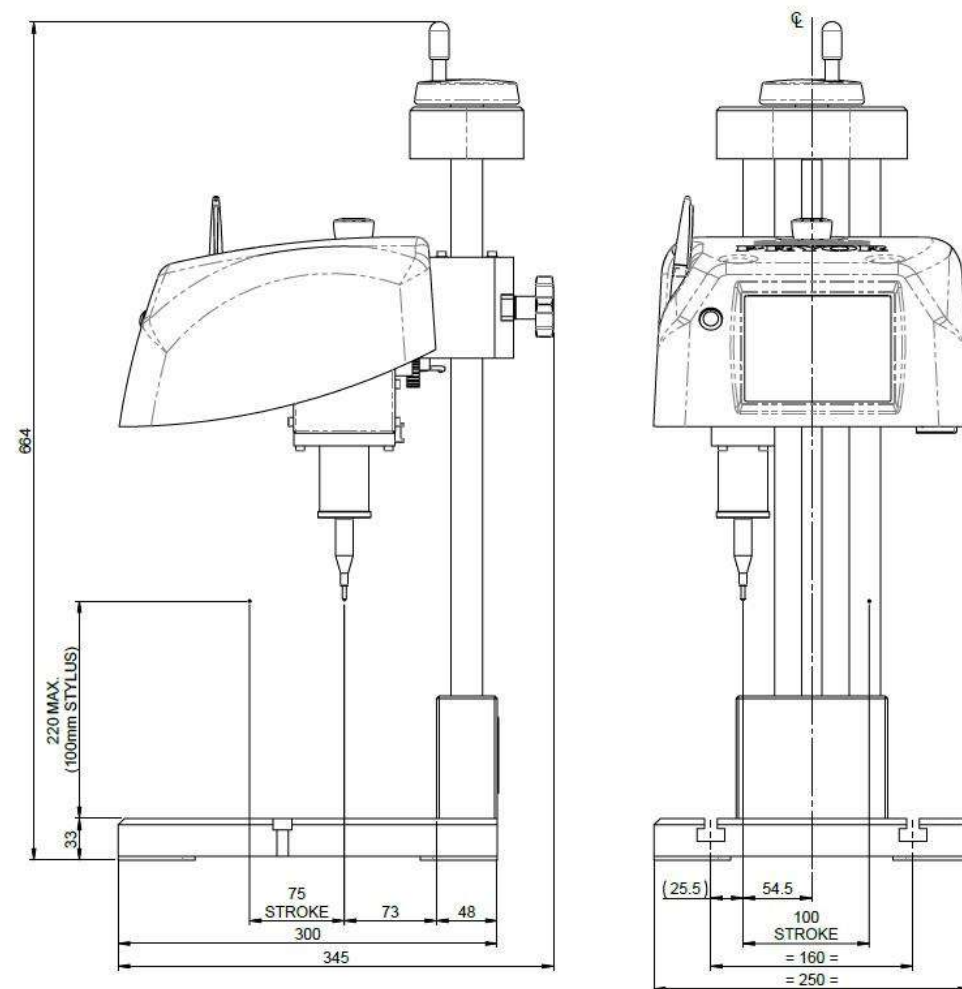

Modos de registro y marcado MS Excel (.csv)

Capacidad de memoria del programa: hasta 9000 diseños

Estructura de carpetas para almacenar diseños, incluido el cambio de nombre de carpetas.

Funciones de vista previa de marca en pantalla y ejecución de prueba

100-240V AC

// Términos y condiciones

- 1) General**
a) The following terms and conditions of sale shall apply to all contracts entered into by Edward Pryor & Son Limited for the sale of products, materials, machinery and equipment of all kinds ("goods") and the expressions "we", "our", "us" and "ourselves" shall be construed as referring to such Company.
- b) These conditions of sale shall override any standard or other terms, conditions or stipulations referred to by the Customer and shall supersede any earlier sets of conditions appearing in our catalogues or elsewhere.
- c) The acceptance of our quotation or tender by the giving of an order or otherwise includes the acceptance of these conditions of sale but no order placed with us will be deemed to be a contract until confirmed by us on our formal Acknowledgement of Order.
- 2) Prices and Quotations**
a) All prices stated in our quotations, tenders, price lists or elsewhere are subject to alteration without notice at any time and in the event of any such alteration being made before the date of our formal Acknowledgement of Order, we reserve the right to charge the full price for goods as at such date (except where it has been agreed by us in writing that the stated price for particular goods shall apply for a specified validity period).
- b) Unless otherwise agreed by us in writing all charges relating to the carriage of goods including the cost of such carriage and packing materials, postage, import and/or export duties and insurance) together with value added tax will be paid by the Customer and will be invoiced accordingly.
- c) Should we incur additional cost through delay in starting work or suspension of work due to the Customer's instructions or lack of instructions, or through any request of the Customer to amend any contract or order, such additional cost may be added to the sale price of the goods.
- 3) Payment**
a) All payments shall be strictly net and no retention shall be made by the Customer. See quotation for payment terms.
- b) In the case of orders for the supply of machinery the net price of which exceeds £5,000 (or such other limit as we shall specify) time to time specify) we shall require progress payments to be made in accordance with our formal Acknowledgement of Order.
- 4) Delivery of Goods by Installments**
We shall have the right to deliver any goods ordered by installments at our unfettered discretion and following the exercise of such right each installment delivery shall be deemed or the purpose of these conditions to have been made pursuant to a separate order and payment in respect of each such installment delivery shall be made accordingly.
- 5) Date for Delivery**
Any period of time specified by us for the delivery of goods shall commence from the date of our Acknowledgement of Order or from the date when we receive full instructions and information from the Customer (whichever shall be the later) and shall be subject to prior sale. Although we shall use our best endeavours to deliver goods or materials by the due date, any date or time stated by us for delivery or for the completion of any work is given and intended as an estimate only and we shall not be liable to make good any damage or loss whether arising directly or indirectly out of delay in such delivery or in completing work. In particular (without prejudice to the generality of the foregoing) we shall not be liable for any delay due to strikes, lock-outs, acts of God, hostilities, force majeure, civil commotion, failure of public utilities or other causes.
- 6) Tests, Demonstrations and Commissioning**
a) The Customer must supply at his own expense all components and materials required for the testing machinery to be supplied by us and such components and materials must be in a condition suited to the requirements of the operation concerned. Any such test required by the Customer must be arranged not less than 28 days before the due delivery date.
- b) We will arrange demonstrations of equipment for customers and their representatives at our premises provided that the cost thereof shall be borne by the Customer.
- c) Unless otherwise agreed by us in writing the cost of commissioning any equipment supplied by us at the Customer's premises shall be borne by the Customer.
- 7) Passing of Property and Risk**
a) Property in goods supplied by us shall not pass to the Customer until payment in respect thereof has been made in full or until any cheque or other bill of exchange tendered in full payment has been honoured (whichever shall be the later).
- b) From the time of despatch from our works the risk of any loss or damage to or the deterioration of goods supplied by us from whatever cause arising shall be borne by the Customer provided always that in the case of machinery manufactured by us for the Customer such risk shall pass when such machinery is ready for delivery and notice thereof has been given to the Customer.
- c) No claim for the non-delivery of goods will be accepted by us unless written notice thereof is given to us within seven days after the date of delivery note (time being of the essence).
- 7) Passing of Property and Risk (cont.)**
d) The Customer shall within seven days after the date of delivery give written notice to us of any matter or thing by reason of which it is alleged that the goods supplied are not in accordance with the original order or subsequent agreed amendments (time being of the essence).
- e) Whilst in our possession or that of any sub-contractor or in transit all goods and property of the Customer shall be at the risk of the Customer in all respects.
- f) Without prejudice to the generality of this Condition we can only attempt to re-engage stamps and moulds at the risk of the Customer or owner.
- 8) Loss or Damage in Transit**
Without prejudice to the generality of Condition 7 hereof the risk of loss or damage to goods or property whilst in transit is on the Customer but we will on behalf and at the expense of the Customer seek compensation from the carrier in respect of any such loss or damage provided that the Company is notified in writing within 48 hours of the receipt of the goods.
- 9) Master Copy and Tools**
Master copy, tools and fixtures essential to our manufacture remain our property and in our possession notwithstanding that the Customer is charged with a proportion of the manufacturing cost thereof.
- 10) Drawings, Samples etc**
All drawings, designs and samples prepared by us for the information and approval of the Customer remain our property and as such may not be copied or reproduced or transferred to any third party without our prior written consent.
- 11) Specifications and Performance**
a) All specifications and designs whether set forth in our quotations or descriptive literature or elsewhere are subject to alteration without notice at any time.
- b) All dimensions, weights or performances whether set forth in our quotations or descriptive literature or elsewhere are approximate only and do not form part of any contract.
- c) Any performance figures or production rates given by us are based on our own experience and on our understanding of the relevant factors but such figures or rates are estimates only and we shall not be liable if such figures or rates are not obtained by the Customer.
- 12) Limits of Liability**
a) All warranties or conditions whether express or implied by statute, common law, custom or otherwise are hereby excluded to the extent that the same may be excluded under the Supply of Goods (Implied Terms) Act 1973.
- 12) Limits of Liability (cont.)**
b) We will repair or if necessary replace free of charge any goods manufactured and supplied by us that are proved to our reasonable satisfaction to be defective due to faulty design, materials or workmanship within 12 months from the date of despatch from our works or within the first 2,000 hours of operation (whichever shall be the sooner) but our liability hereunder shall not extend to normal operational wear and tear or perishable goods nor to goods or components not manufactured by us.
- c) In the case of goods or components supplied but not manufactured by us, the terms of any guarantee given by the manufacturer must be relied upon by the Customer and no claim can be accepted by us.
- d) We shall not be under any liability whatsoever to the Customer if repairs or alterations of any kind are attempted to goods by the Customer or any third party without our express approval.
- e) We shall not be liable for any indirect or consequential damage whatsoever to the Customer or to other or to property caused by or arising out of or in connection with any advice given or the supply of goods in pursuance of any order or by any defect inherent, latent or otherwise in any goods supplied by us.
- f) In case of damage arising directly from any breach of contract between the Customer and ourselves our liability whether in contract or in tort shall not exceed the value of the goods the subject of such contract.
- 13) Partial Completion**
In the case of a partial completion of an order we shall be entitled to a quantum meruit in respect of all work done by us without prejudice to our rights should non-completion be occasioned by the act or default of the Customer or by reason of the unsuitability of materials supplied by the Customer or by a supplier nominated by the Customer.
- 14) Patents, etc**
The Customer shall indemnify us against all damages, penalties, costs and expenses to which we may become liable as a result of work done to the specification of the Customer which involves the infringement of any letters patent, registered design or copyright.
- 15) Health and Safety at Work act 1974**
We are aware of our duties as manufacturers under the Health and Safety at Work Act 1974 and shall use our best endeavours to ensure that all goods manufactured by us conform with such Act. The Customer shall, therefore, indemnify us against all damages, penalties, costs, claims and expenses to which we may become liable under such Act otherwise than as a result of a breach of our duties or obligations there under.
- 16) Termination**
We shall be entitled to terminate any contract or order forthwith if the Customer commits any breach of the contract or order, if distress is levied or a civil judgement executed or enforced against the Customer, its property or assets or if the Customer (being an individual) commits an act of bankruptcy or (being a company) has a receiver appointed of its undertaking or assets or an order made or effective resolution passed for its winding up (save for an amalgamation or re-construction which thereafter takes place).
- 17) Subcontracting**
We shall have the right to sub-contract the fulfillment of any order or any part thereof.
- 18) Law Applicable**
Unless otherwise agreed in writing these conditions and any contract made in accordance with them shall be deemed to have been made in England and shall be subject to and construed in accordance with English Law.
- 19) Sub-Headings**
Sub-headings are included in these conditions for convenience of reference only and shall not affect the construction thereof in any way.
- 20) Data Protection**
a) We will make a search with a credit reference agency, which will keep a record of that search and will share information with other businesses. We may also make enquiries about the principal directors with a credit reference agency.
- b) We will monitor and record information relating to your trade performance and such records will be made available to credit reference agencies who will share that information with other businesses in assessing applications for credit and fraud prevention. We will monitor and record information relating to your trade credit performance and such records will be made available to other organisations to assess applications for credit.

SOLUTIONS

Además de nuestra gama estándar de maquinaria, tenemos la capacidad de diseñar, fabricar e instalar sistemas de marcado completamente a medida. Nuestra misión es resolver complejos desafíos de ingeniería relacionados con la identificación y la trazabilidad.

MACHINES

Pryor Technology ofrece la mayor gama de máquinas de marcado permanente en el mundo. Ofrecemos máquinas de marcado por micropercusión, láser, trazadora y grabado químico.

HAND TOOLS

Pryor Technology se enorgullece de ofrecer una gam completa de sellos y productos tipográficos de metal para aplicaciones de marcado manual.
